Completion Escrow Standard

Overview

Truist prefers a property to be 100% complete at the time of delivery of the loan; however, there are exceptions.

- For Agency loan programs, Truist will purchase loans subject to escrowed funds for the completion of post-closing improvements to newly constructed and existing properties, provided that the escrow was established in accordance with Agency requirements.
 - For the Key Loan program, Truist will purchase loans subject to escrowed funds for the completion of post-closing improvements to newly constructed properties, provided that the escrow was established in accordance with the standards below. Truist will purchase loans secured by existing properties with escrows for improvements on a case-by-case basis.
 - For FHA loan programs, Truist will purchase loans subject to escrowed funds for incomplete construction, or for alterations and repairs that cannot be completed prior to loan closing, provided the housing is habitable and safe for occupancy at the time of loan closing, and the escrow was established in accordance with FHA requirements, as applicable.
 - For VA loan programs, Truist will purchase loans subjected to escrowed funds for the completion of certain items which must be postponed due to weather conditions or other circumstances, provided that the escrow was established in accordance with VA requirements.
 - For RD loan programs, Truist will purchase loans subjected to escrowed funds for the completion of certain items which must be postponed, provided the home is habitable and the escrow was established with RD requirements.

Completion Escrow Standards, Continued

Key Loan Completion Escrow Standards

Types of Completion Escrow

External Improvements

Incomplete exterior items such as seeding, grading, landscaping, driveway and touch up painting are acceptable items, which may be escrowed. The expiration date for escrow is 30 days from the closing date, unless the Winter Months Standards are used. The Truist Correspondent Operations Manager prior to closing must approve any exception to the standards.

Internal Improvements

- Escrows for internal improvements are generally not allowed.
- All other internal improvements will be considered on a case-by-case basis and must be approved by the Truist Correspondent Operations Manager prior to closing.

Swimming Pool Escrow Standards

Escrows for swimming pools are not allowed.

Winter Months Standards

- The expiration date for escrow completion may be extended for new construction properties only if the improvements are external and the cause for the escrow is weather-related.
- The inclement weather months have been established as November through March, and only applies to those geographic locations that experience winter weather conditions. Loans that close during these months must have an escrow agreement expiration date no later than April 30th.

Key Loan Completion Escrow Standards, continued

Winter Months Standards, continued

- A letter explaining the use of the Winter Months Standards must be attached to the *Escrow Agreement for Postponed Improvements* ([COR 0016](#)) to assist the purchase reviewer in determining the reason for exception from the normal 30-day requirement. If a date beyond April 30th is needed, please contact Truist for approval, prior to closing.

Note: The incomplete items may not adversely affect the basic safety or livability of mortgage premises.

Conditions of the Escrow Agreement

Amount to Held in Escrow

Escrow holdback must be for one and a half (1.5) times the value of the incomplete improvements. The cost for completion must be verified with contract or a cost to build/repair estimate.

Term of the Escrow Agreement

The expiration date is 30 days from the closing date, unless the Winter Months Standard applies with the exception of swimming pools. Swimming pool escrows expire sixty (60) days from the closing date. Truist must approve any extension to the expiration date.

Required Signature on the Escrow Agreement

All borrowers, builder/seller and lender must sign the escrow agreement. Use the correspondent form *Escrow Agreement for Postponed Improvements* ([COR 0016](#)). Use of any other form requires Truist prior approval.

Who Holds the Escrow Funds

The closing agent, lender, or title company should hold the funds. In no event may any other party hold the funds to the transaction, (i.e., builder, seller or borrower).

Tracking of Outstanding Escrow Funds

The correspondent is responsible for follow-up on all outstanding escrow agreements. If improvements are not made as agreed, Truist will hold the correspondent lender responsible for completing the improvements with the escrowed funds.

Authority to Release Escrow Funds

The original appraiser must inspect the completed work, and, if applicable, a *Satisfactory Completion Certificate* (Freddie Mac form 442) with photos must be completed and signed.

- Obtain satisfactory evidence (mechanic's lien waiver) from the builder/seller to assure that there are no outstanding mechanic's liens, which can attach to the property.
- Send the completed *Satisfactory Completion Certificate* and mechanic's lien waivers to the purchase reviewer.

Completion Escrow Standards, Continued

FHA Loan Completion Escrow Requirements

- Truist will permit an escrow for repair or property completion, subject to FHA requirements, as follows:
 - Provide Form HUD-92051, Compliance Inspection Report, or Fannie Mae Form 1004D/Freddie Mac Form 442, Appraisal Update and/or Completion Report, and
 - evidence of completion of the Escrow Closeout Certification screen in FHAC.
- The correspondent lender is responsible for follow-up on all outstanding escrow agreements.

RD Loan Completion Escrow Requirements

- Truist will permit an escrow for repair or property completion, subject to RD requirements, as follows:
 - Provide Fannie Mae Form 1004D/Freddie Mac Form 442, Appraisal Update and/or Completion Report.
- The correspondent lender is responsible for follow-up on all outstanding escrow agreements.

VA Loan Completion Escrow Requirements

- Truist will permit an escrow for repair or property completion, subject to VA requirements, as follows:
 - Complete [VA Form 26-1839](#) Compliance Inspection Report, indicating the postponed work has been satisfactorily completed, or
 - if the postponed work is minor, uncomplicated, and not involving structural issues, provide written certification from the lender indicating the work has been completed, and a statement from the Veteran-purchaser that he or she is satisfied with the work.
- The correspondent lender is responsible for follow-up on all outstanding escrow agreements.

Septic Repairs/ Replacements in Massachusetts

General

A satisfactory septic inspection is required prior to the transfer of title on any property with a private sewerage system located in Massachusetts as mandated by Title 5 of the Massachusetts environmental Code. If an unsatisfactory septic inspection is received, and escrow holdbacks will be necessary for septic repairs, the standards below must be met.

- Septic repair plans guaranteeing that the system, once repaired, will pass inspection and must be approved by the Board of Health.
- Truist's Winter Months Escrow Standards do not apply. Since a malfunctioning or inadequate septic system may adversely affect the livability of the dwelling, the septic system must be completed within 60 days of closing.

Note: Repairs that require a complete replacement of the septic system are unacceptable.

Amount to held in Escrow

The escrow holdback must be for one and one-half (1.50) times the estimated amount needed to complete the repair. A qualified septic contractor must verify the cost for completion.

Term of the Escrow Agreement

The expiration date is within 60 days of the closing date.

Required Signature(s) on the Escrow Agreement

All borrowers, builder/seller and lender must sign the escrow agreement. Use correspondent form *Escrow Agreement for Postponed Septic Improvements* ([COR 0016a](#)).

Who Holds Escrow Funds

The closing agent, lender, or title company should hold the funds. In no event may any other party hold the funds to the transaction (i.e., builder, seller or borrower).

Tracking of Outstanding Funds

The correspondent will be responsible for follow-up on outstanding escrow agreements. Once the septic repairs are complete, the correspondent will order the final inspection from the local Board of Health. If improvements are not made as agreed, Truist will hold the correspondent lender responsible for completing the improvements with the escrowed funds as set forth in the Escrow Agreement.

Authority to Release Escrow

- The local Board of Health must complete the inspection and issue a passing certificate.
- Obtain satisfactory evidence (mechanic's lien waiver) from the builder/seller to assure that there are no outstanding mechanics liens that can attach to the property.
- Send the passing certificate and mechanic's lien waivers to the purchase reviewer.
